

NSI Strategies Supports Integration

- **Consultation** – With your input and guidance NSI develops consultation plans that are specifically designed to meet the needs of your health center.
- **Technical Assistance** – NSI provides the skill building, training and knowledge to strengthen your health centers internal capacity to manage change.
- **Financing and Sustainability** – NSI trains your team to utilize data and analytics to sustain clinical pathways and workflows to create a solid foundational support.
- **Staff Training** – NSI has a history of delivering evidenced based clinical and operational training to health center teams, departments, and “all staff” trainings.
- **Clinical Education** – NSI specializes in the clinical training necessary to elevate competency and confidence to effectively implement evidenced based practices
- **Coaching and Supervisory Support** – NSI provides 1:1 and team coaching support in clinical supervision, management skills, team development and managing organizational culture.
